PRESIDENT MESSAGE

NAROTHAM THUDI, MD
President

I feel deeply honored to welcome you all to the 36th convention of Osmania Gandhi Kakatiya & Telangana Medical Alumni Association of America (OGKTMA) September 15-16th at the Renaissance Dallas Addison hotel in Addison, Texas.

OGKTMA is one of the most prestigious and respected organizations in United States, represented by thoughtful and great minds from the medical schools in the state of Telangana. The association dedicates its focus on a forum for scientific, educational, cultural, charitable and social interaction among the alumni members, which develop into discussions, plans and actions to improve healthcare.

Our alumni members have always maintained strong roots with their alma maters and have contributed to many impactful programs including building medical alumni centers, building renovations, developing electronic libraries and installing automatic defibrillators for the first time in public ambulances the state of Telangana. Our alumni leadership promptly responded to the oxygen and medical equipment shortages during the COVID-19 crisis and provided more than 400 oxygen concentrators other life-saving equipment to various government and nonprofit hospitals and distributed high-quality PPE supplies to the house staff.

OGKTMA successfully conducted the first KMC research day in 2023 attracting medical students from all over India to present their research activities. The alumni members have been conducting virtual didactic lectures to medical students in the state of Telangana.

It has been a delight and privilege serving as President of OGKTMA in 2023. I am incredibly thankful to my executive committee, Board of Trustees and regional directors and all the alumni members for their constant support and guidance. I am also grateful to my Dallas organizing & Advisory team for their time, dedication and efforts to make this event successful. Working alongside this amazing group has taught me the true value of leadership and teamwork.

Thank you all for taking part in this year's convention. I hope you can all gain strength from each other to further OGKTMA's dedication to continue our mission and serve the community.

Best Regards
Naritham Thudi, MD.
Hematology & Medical Oncology
Texas Oncology, Irving, TX

CONFERENCE AGENDA

FRIDAY, SEPTEMBER 15, 2023

Garden room, First floor, Renaissance Dallas Addison hotel

7 PM – 8 PM	Welcome reception for OGKTMA alumni members & introductions
8 PM – 9 PM	Dinner
9 PM – 11 PM	Entertainment / Talent show / Karaoke

SATURDAY, SEPTEMBER 16, 2023

Garden room, First floor, Renaissance Dallas Addison hotel

7.00 AM – 7.45 AM	Registration, breakfast and exhibits.
7.45 AM – 8.00 AM	Welcome address & Introductions by the course director
8.00 AM – 8.45 AM	CME Presentation “Food is Medicine: Lifestyle Medicine approach for chronic disease reversal” by Dr. Bhoja Reddy Katipally
8.45 AM – 9.30 AM	Ethics CME presentation “Generation Z & Mental Wellness” by Dr. Sejal Mehta
9.30 AM – 10.00 AM	Break & exhibits
10.00 AM – 11.00 AM	CME presentation “Neuro-Gastroenterology and GI Motility. The New Frontier in Gastroenterology” by Dr. Satish Rao
11.00 AM – 11.20 AM	Business promotional presentation by Mr. Shakti C’Ganti, Founder & CEO Ashland Greene Real Estate
11.20 AM – 11.50 AM	Non CME presentation “Using Comprehensive Genomic Profiling to Enhance Patient Care” by Dr. Christy Russell
12.00 PM – 1.15 PM	Lunch & Presentations (Garden room)
12.00 PM – 12.20 PM	DFW Land real estate opportunities by Vijay Borra
12.20 PM – 12.35 PM	Wealth building strategies by Linga Gudibandla (ProInvest Financial Group)
12.35 PM – 12.45 PM	Investment opportunities – Dallas Venture Capital by Dayakar Puskoor
12.45 PM – 1.00 PM	OGKTMA Fundraising
1.00 PM – 3.00 PM	OGKTMA General Body meeting (Garden room)

CONFERENCE AGENDA

SATURDAY, SEPTEMBER 16, 2023

Garden room, First floor, Renaissance Dallas Addison hotel

3.00 PM – 5.00 PM	GMCGA General Body (La Galla room), OMC alumni meeting (Garden room) & KMC alumni meetings (Mayfair room)
5.00 AM – 6.00 PM	Break

OSMANIA MEDICAL COLLEGE

OSMANIA MEDICAL COLLEGE

Osmania Medical College is a premier medical college in Hyderabad, India and is often ranked among the best medical colleges in the Nation. It was founded in 1846 as the Hyderabad Medical School, making it one of the oldest medical schools in the world. It is now under the gamut of Kaloji University of Health Sciences. The college was originally affiliated to the Osmania University of Hyderabad. It is the one of the old medical college in India.

OSMANIA GENERAL HOSPITAL

Osmania General Hospital (OGH) is one of the oldest hospitals in India located at Afzal Gunj, Hyderabad. It is run by the Government of Telangana and is one of the largest in the state. The hospital building is a heritage structure. The hospital was completed in 1919 and was designed by British architect Vincent-Jerome Esch and Nawab Khan Bahadur Mirza Akbar Baig. He also designed The High Court, City High School, Railway Station of Hyderabad for His Exalted Highness (H.E.H) Osman Ali Khan, the Nizam of Hyderabad in Indo-Sarcenic style.

OSMANIA MEDICAL COLLEGE

HISTORY

1846:	Opening of the Nizam's Medical School by Dr. William Maclean for the teaching European Medicine in Urdu language to the native youth of Deccan. The school was located in a rented building at Gun foundry and later clinical instruction was given in the Residency Dispensary (now called Sultan Bazar Hospital).
1866:	Construction and opening of the Afzalgunj Hospital for clinical teaching to the medical students.
1908:	The Great flood in Moosi destroys part of the Afzalgunj building. Hospital was rebuilt.
1912:	Suggestions to build a new hospital on the best models of the West.
1918-20:	Planning and construction of the new hospital.
1920:	Medical school converted into medical college.
1922:	The classes and other teaching departments shifted from Sultan Bazar to a private building near Khairatabad.
1925-26:	The new Osmania General Hospital was completed and the hospital shifted from Afzal Gunj buildings into the new premises.
1952:	Government of Hyderabad takes over the administrative control of the medical college from the University. A Government medical officer was appointed as head of the college and the hospital.
1955:	Inauguration of the Postgraduate courses in Medicine.
1956:	Laying of the foundation stone for the new building in Residency Compound by Dr. B. Ramakrishna Rao, Chief Minister of Hyderabad State.
1962:	Opening of the present campus at Koti, Hyderabad.

GANDHI MEDICAL COLLEGE

On September 14th 1954 our college was established in the erstwhile State of Hyderabad. It began as a private institute under the management of Anwar Ul - Uloom Educational Society of Indian Medical association. It was the first Medical College after Hyderabad joined the Indian Union. The college could not be sustained on account of financial difficulties. Chief Minister Dr. Burgula Ramakrishna Rao intervened and took it over to run it as a government college. On June 25th 1955 the name was changed to Gandhi Medical College and inaugurated by the President of India Dr. Rajendra Prasad. After the reorganization of the Indian states and formation of Andhra Pradesh the college was moved to buildings in Basheerbagh that were built in 1890. In 1958 Chief Minister Dr. Neelam Sanjeeva Reddy inaugurated the college on Basheerbagh Road.

History of Our College from 2000 to 2004 : Story of Relocation to current premises in Musheerabad.

The first foundation stone for construction of GMC/GH campus was laid by Dr. N.T .Rama Rao on January 5th 1987. The Chief Minister Shri. Chandrababu Naidu laid the foundation stone for the second time. It took over two years to complete the construction and the college relocated to Musheerabad on 21-11-2003 and the hospital in 2004.

History of Gandhi Hospital

Gandhi Hospital began as an infirmary near Secunderabad Railway Station. It was established by the British Government in 1851. By early twentieth century the facility had expanded and had 95 beds with three wards. The hospital was further expanded with charitable contributions by philanthropists and given the name King Edwards Memorial Hospital in memory of King Edward VII (KEM HOSPITAL). It was opened by the British Resident ,Mr. S.M .Fraser on 20th December 1917. Until 1958 the students of People's Medical College and the GMC had to round at Osmania General Hospital for clinical experience. KEM was renamed Gandhi Hospital and thus the teaching hospital for GMC.. In 2004 it moved to the current location. primarily serves the poor people of the city.

Gandhi, Osmania Medical Colleges put up impressive show

The medical education in the State-run teaching hospitals of Telangana has started to get its due recognition with Gandhi Medical College (GMC) getting 16th rank in the Indian Today Magazine Ranking list of top 40 best medical colleges in India for year 2019.

Last year, the rankings had the GMC at 20th position and this year, it improved by four places. The Osmania Medical College (OMC) also finds a place in the list with 21st rank.

GANDHI MEDICAL COLLEGE

GMCGA'S ACCOMPLISHMENTS

- Construction of an Alumni Education Center (AEC) with lecture halls, faculty suites and guest rooms in the center
- Establishment of American Heart Association recognized International Training Center
- Training about 4,000 physicians in Basic Life (BLS) and Advanced Cardiac Life Support Programs (ACLS)
- Training general public in BLS
- Outreach program for hands-only CPR is being developed lately
- Installing Automatic External Defibrillators (AEDs) in the Gandhi Hospital
- Providing 90,000 free meals annually for indigent family members visiting Gandhi Hospital. More than 250,000 free meals provided in last three years
- Instituting Student Scholarship Programs, Student and Teacher Recognition Awards
- Providing Continuing Medical Education to medical students, residents and faculty.
- Youth participation in volunteering activities
- Strengthening the collaboration with local Non-Profit Organizations
- Supporting palliative care program "Roshni"
- Supporting Pediatrics Department with Mechanical Ventilators
- Emergency Department with Medical Equipment
- Electronic library service in College and AEC
- Renovation of waiting area opposite the Emergency Room
- Installation of Clean Drinking Water Plant
- Supporting Ear to Hear Program - a new born hearing screening program
- Publishing a newsletter triennially
- Creating a very good informational website www.gandhimedicalglobalalumni.org
- Last, but not the least, we have focused a lot on strengthening the organization and creating new committees

FUTURE PLANS

Our motivated leadership group is constantly seeking ideas and ways to contribute towards the alma mater's growth, making it a better experience for indigent patients and future generations of doctors. Recognizing that an engaged and involved alumni has the capacity to take their alma mater to greater heights benefitting humanity ultimately, we constantly make efforts to bridge the generation gap and get more youngsters involved. We realize that more alumni coming together will only bring in more collective strength, intellectual insights and financial resources to the organization, helping it scale to much higher height.

KAKATIYA MEDICAL COLLEGE

Kakatiya Medical College was founded in 1959 by the Warangal Regional Medical Education Society (RMES) with the active support of the then Chief Minister of Andhra Pradesh Neelam Sanjiva Reddy. The Director of Medical Services of A.P. and the Warangal District Collector Mohsin Bin Shabbir (whose picture adorns the main entrance of the medical school with quote 'The Earth sometimes bears gems and here is one') to provide medical education for students of the Telangana region of the State.

The college was inaugurated on 23rd July 1959 by the P. Karmarkar. Minister of Health, Government of India. It was originally in a building donated by the Pingili family at Waddepally and it moved into the makeshift building constructed at the permanent site in November 1961.

152.17 acres of land was acquired for the medical college in Warangal and the permanent building of the college was constructed at an estimated cost of about Rs. 47 lakhs. Indira Gandhi, the then Prime Minister of India inaugurated the permanent campus in 1966.

The temporary sheds which were constructed earlier had been remodeled to the boys' hostel. A permanent building for the girls' hostel was constructed and inaugurated by Sri J. Chokka Rao, Chairman A.P Regional Committee in 1970. An impressive auditorium with an open-air stage was constructed behind the college with cinematographic equipment which can accommodate 500 students.

The A.P Government took over the college from RMES in February 1977. In the same year the college affiliation was transferred to Kakatiya University from Osmania University. And since 1st March 1987 the college was affiliated with University of Health Sciences, now Kaloji Narayana Rao University of Health Sciences, Warangal. The postgraduate courses were started in 1972 and the college is conducting postgraduate courses in all departments.

Dr. Surendra Reddy Neravetla
MD, FACS, Cardiac Surgery

Slay Salt, Choose Health

Consuming Salt leads to Hypertension, which leads to 50% of the total heart attacks and strokes

Be proactive in preventing heart disease, blood pressure, and cardiac surgery in your community. If you are in the F&B service and truly care about your customers, here are some ways for you to help us!

Join me in saving lives through preventative care & lead by example!

+91 9372159076

neravetla@yahoo.com

<http://www.saltkills.com/>

**Small Actions.
Huge Impact**

Be Transparent

Disclose salt content details on the menu

Make Salt a Choice

Offer salt shakers when requested by patrons

Offer Alternatives

Include several low-salt options on the menu to cater to a discerning consumer

Eliminate Salt

Prepare food without salt and allow patrons to add salt as per their sensitivity

ABOUT DALLAS VENTURE CAPITAL (“DVC”)

- DVC is an early-stage, thesis-driven \$150M **cross-border Venture Capital firm** focused on enterprise innovation in the cloud economy, developer tools, AI Ops, and cybersecurity
- Operating from both **Dallas** and **Hyderabad**, DVC creates a bridge that connects two of the largest start-up ecosystems in the world
- DVC has a seasoned investor-operator team consisting of enterprise software **Builders, Sellers, Buyers** (“BSB”) that has managed large-scale technology enterprises, and started, scaled and exited multiple ventures
- DVC has an edge through proprietary access to deal flow and robust deal evaluation process
- **DVC Advantage** has enabled 10x revenue growth for its portfolio companies by leveraging its BSB expertise and exclusive network of Enterprise Technology buyers

 - AI, Analytics, Cloud, IoT, Cybersecurity, Blockchain
- **Early Growth Stage Companies**
 - \$0.5 - \$5M Annual Recurring Revenue (ARR)
- **\$2 - \$5M, Early Growth Stage (Pre-Series A to Series B)**
 - Investment size
- **DVC Advantage Fit**
 - To accelerate growth

PORTFOLIO

GANDHI MEDICAL COLLEGE GLOBAL ALLIANCE (GMCGA)

Mission: GMCGA was incorporated as a non-profit organization in 2005 to foster kinship among the alumni with a mission to enhance educational programs and patient care services centered at the alma mater.

Vision: To achieve and maintain the reputation as a reliable and respected philanthropic organization in medical education and healthcare.

Alumni Education Center (AEC): The first major accomplishment of GMCGA was the construction of the AEC in 2006 in collaboration with Gandhi Medical College Alumni Association (GMCAA) under the auspices of Alumni Educational Society (AES). The AEC is a three-level structure with around 15,000 sq. ft. of space containing two auditoriums and classrooms for professional meetings, CME programs and academic functions. The AEC has a heritage lounge with the legendary staircase that was originally a centerpiece at the old Gandhi Hospital. The AEC has been the center for all educational activities where CME activities with international faculty are conducted and in 2016, the American Heart Association (AHA) recognized the AEC as an International Training Center (ITC) to conduct AHA approved ACLS & BLS courses.

International Training Center (ITC)/American Heart Association (AHA) Certified ACLS/BLS/PALS Training Program:

After the construction of AEC and getting official recognition from AHA in 2016, Dr. Surakanti established the ITC, which was the first of its kind in Telangana & Andhra States. Since that time, the program has gone from strength to strength offering AHA Certified provider and instructor courses in BLS, ACLS & PALS and also Community CPR programs. Several thousand people including medical & nursing students & professionals, House surgeons, PGs, allied healthcare & law enforcement professionals, students and members of the general public have been trained in the various training programs offered by ITC.

Student Financial Grant (SFG) Program: GMCGA in collaboration with GMCAA and EKAM foundation established the SFG program in 2021. This program provides support in the form of a grant to undergraduate students of GMC who are in need of financial support to complete their medical education. A total of sixty students (fifteen from each year) are given Rs 3500 per month till they complete their final year of MBBS.

Pain Clinic & Pain Management Program: GMCGA in collaboration with the Anesthesia Department of GMC/GH established a pain clinic at Gandhi Hospital in 2018- the first of its kind in the history of Gandhi Hospital. In addition to this, a Pain Management Education/Training Program was established in collaboration with Center for Pain Management, USA and several education/training conferences & CME events including virtual classes for undergraduate, postgraduate students and staff of GMC/GH are being conducted.

Road to Residency Mentorship Program: This program established in 2022 offers guidance to GMC students and alumni who are interested in pursuing further education, training and career opportunities in USA.

Virtual Classes, Teaching, Training & CME Programs: GMCGA established the first of their kind virtual teaching/training programs for the staff, undergraduate and postgraduate students at GMC/GH in 2022 in addition to several in person CME programs and events. Virtual classes are being conducted in several departments including Gastroenterology, Nephrology, Endocrinology and Pain Management.

Equipment Donation Program: Since its inception, GMCGA has donated and will continue to donate medical equipment and supplies to several departments/specialties in GMC/GH.

COVID-19 Assistance Program: Since Gandhi Hospital was a designated center for COVID during the pandemic, GMCGA raised funds and donated money and lifesaving equipment to Gandhi Hospital and other regional hospitals like ENT hospital.

Community Outreach Programs:

CPR Training Program: This community outreach program is one of the most popular projects of GMCGA. This program teaches basic CPR skills to the general public including school students, public officials and also medical, paramedical and healthcare professionals. This program, through its widespread reach is providing the basic skills of resuscitation to the general public which in turn, is saving lives. Impressed by the utility and popularity of this program, the Governor of Telangana Smt. Tamilsai Soundararajan attended one of the sessions and also had one session conducted at Rajbhavan.

Non Communicable Diseases (NCD) Program: This community outreach program brings awareness and educates the medical fraternity, school teachers and parents about lifestyle related preventable NCDs, thereby decreasing their incidence and prevalence.

Programs of GMCGA in collaboration with other organizations

- Roshini Palliative Care Program in collaboration with Roshini & MNJ Cancer Hospital
- Free Meals, Clean Drinking Water Plant and Renovation of Waiting Area Program in collaboration with Sevabharati
- Emergency Room Project in collaboration with Yousee and Ekam
- Equipment Donation in Collaboration with Yousee and Ekam
- Ear-to-Hear Screening Program in Collaboration with Meenakshi Venkatraman Foundation
